Accelerate SAFe Transformation as an Advanced SAFe Practice Consultant

upGrad KnowledgeHut:
Your **Gateway to SAFe Excellence**

The Advanced SAFe® Practice Consultant certification is a new initiative by Scaled Agile to develop an elite level of SPCs who can go beyond training enterprises in SAFe. With the ASPC certification you will learn to engage leaders in the enterprise, leverage Lean Portfolio Management principles and accelerate SAFe transformations and sustain it too.

Engage Leadership with
Valuable Transformation Metrics
and Reporting

Showcase Your SAFe Expertise with
Micro-credentials and SAFe Skills

As a part of the certification training you will earn 4 micro-credentials and 1 SAFe skill that you can highlight on your profile apart from the ASPC certification.

Gain 4 Micro-credentials

Executing a Successful
Transformation Strategy

Excelling with
LPM

Engaging
Leaders

Pursuing Relentless
Improvement

Add a SAFe skill

Writing Effective
OKRs

Course **Curriculum**

Module 1: Executing a Successful Transformation Strategy (4 Hours)

Learning Objective:

Learn how to draft and execute a SAFe transformation in a sustained and accelerated way. Learn techniques from expert SAFe trainers on how to drive an effective transformation.

MODULE 2: Excelling with Lean Portfolio Management (4 Hours)

Learning Objective:

Learn LPM practices and understand how to effectively deploy and benefit from them. You will learn under the guidance of experts to leverage LPM.

MODULE 3: Engaging Leaders (4 Hours)

Learning Objective:

Learn ways of engaging leadership in SAFe transformations as it is crucial for the success of any SAFe implementation. The leaders need to buy in and understand the benefits of SAFe if they are to completely support SAFe practices.

MODULE 4: Pursuing Relentless Improvement (4 Hours)

Learning Objective:

Learn how you can develop and sustain a culture of relentless improvement in a SAFe enterprise. Understand how to champion this approach and integrate it into the organizational culture.

MODULE 5: Writing Effective OKRs – SAFe Skill (1 Hour)

Learning Objective:

Add a valuable SAFe skill to your portfolio by learning how to write effective OKRs (Objectives and Key Results) in a SAFe enterprise in this self-paced course.

MODULE 6: Scenario-based peer-to-peer learning (4 Hours)

Learning Objective:

Learn to apply your learnings in the learning labs under expert supervision and peer-to-peer engagement. This will give a finishing touch to your learning, ensuring you are ready to apply it in real-time situations.

Create a Culture of Continuous Learning and Relentless Improvement
