## AngularJS Developer

Dover, Delaware • +1-234-456-789 • [professionalemail@resumeworded.com](mailto:professionalemail@resumeworded.com) • [linkedin.com/in/username](https://www.linkedin.com/in/username)

AngularJS developer with 10 years of experience debugging and maintaining code, performing end-to-end testing, and delivering products below budget and within customers' timeframe. Passionate about creating highly scalable and visually attractive applications, understanding client requirements, and delivering projects to achieve 100% customer satisfaction. Key achievement: developed RESTful API endpoints in NodeJS using 106K lines of code to support the functionality of 19 mobile apps.

### WORK EXPERIENCE

---

#### AngularJS Developer

2015 – Present

Resume Worded, New York, NY

- Constructed UI for 13 applications via HTML & JavaScript and expanded the webpages for 112 mobile and web devices.
- Partnered with 17 marketers and 40 Designers to distribute front-end experiments at 65% below budget.
- Created 22 new pages using AngularJS to work seamlessly across different devices and debugged them for better quality.
- Developed RESTful API endpoints in NodeJS using 106K lines of code to support the functionality of 19 mobile apps.

#### Mobile Application Developer

2013 – 2015

Growths, San Francisco, CA

- Designed an Android mobile application that allows 200K customers of Growths Railways to book train tickets within 45 cities in the country.
- Spearheaded the creation of multiple applications for iOS and Android (using flutter) with 39 UI/UX teams to deliver required features for 2K clients.
- Devised an application enabling over 1M users to view their current and desired location by implementing Google Maps and geocode keys.

#### Web Developer

2010 – 2013

Resume Worded's Exciting Company, New York, NY

- Overhauled Growths mobile applications with 20K users, resulting in 1M new downloads within two hours of release.
- Revised the company's web security application, which helped to reduce potential hacks by 64% within the first week of employment.
- Re-evaluated 19 existing web pages, 39 programs, and 120 mobile apps to locate and fix bugs; implemented enhancements that improved speed and functionality by 80%.
